Beautiful art and some challenging puzzles. This game is not for all people, just for those that enjoy point and click adventures, puzzle games and "indie" art.

* Pros:

- Calm game to let you think.
- Nice art work.
- Surrealist universe.

* Cons:

- Good music, but sometimes it is too repetitive. I miss an option to mute inside the game.
- Music puzzles are hard for normal people. If you are not musician, it is difficult to identify the sounds. Hopefully, try and error works well without taking a long time.
- The puzzles are linear, so, if you are stuck, you cannot try other puzzles.
